EVENTS GLIMPSES

OUR FUNDAMENTALS

Social work is a noble cause and our aim is to work at grass roots levels rather than project hypothetical plans. With the intent of working towards a crime free society, our primary focus is providing Legal and Financial Aid to the underprivileged.

We perform with due commitment under the scrupulous supervision of experts from various fields, since we believe that they have the ability to overcome the hurdles and problems at hand with unique and creative solutions.

An idle mind is a devil's workshop. In order to prevent the youth and the next generation to fall into the traps of various crimes, we aim to model the students and youth into responsible citizens of tomorrow. We function in a transparent manner and wish that people at large support us in our quest of penetrating through society to identify and help the needy and indigent seeking legal and financial aid.

FOUNDER & MANAGING TRUSTEE'S MESSAGE

The main intent to start Global Care Foundation was to explore the world of crime prevention as I felt great lacking in the society as to Legal Aid and Awareness. I observed that not many are sensitised in this domain and took upon myself to venture into the least worked upon area.

The lack of appropriate legal guidance and awareness has caused a huge population, especially belonging to minorities, who are underprivileged and downtrodden land up in jails.

Global Care Foundation was born in 2017. Five years ago, we were three trustees and one staff member who began working at changing lives of the needy and penurious. With the passage of time, the organisation started growing in terms of activities as well as staff.

Although, we are still a small team of people, the achievements were enough to make heads turn. In the little span of time, we have been prosperous to have released 500+* undertrials on cash bail. These undertrials are first time offenders who have been imprisoned for years for want of mere ten to fifteen thousand rupees.

Since we function in a niche area of crime prevention through various means, people high and low have appreciated our work and we have garnered immense support from the community.

I envision to go nation wide while working at the grassroots level and strive each day by making differences to lives that matter.
